**INSTRUCTIONS:**

1. Begin by choosing a minimum of four concerts. The more concerts you choose, the greater your discount per ticket! Place an "X" next to the concert you would like included in your package, and then circle your preferred performance time. If you'd like extra tickets to any show, please notate that on the bottom of the form (extra tickets will be \$49.50 per ticket). Once you are finished, count how many concerts you have selected then precede to the next step.

2. Determine your package total by multiplying the number of seats you would like to each concert and your corresponding subscription package's price per seat (noted below). *Example: 4 Concerts: 2 seats (x) \$198 = \$396.* Write your total in the checkout box.

**Checkout:** Add all of your amounts together to get your total, write down your preferred seats, select your method of payment, and notate any added tickets.
